

SAF-HOLLAND and HAZET – a strong partnership

STRAIGHT IMPACT WRENCH SW 24

for **brake caliper repairs**
(SAF No. 04 434 3338 00)

- ▶ **Guaranteed opening** even of strongly rusted screws
- ▶ Developed for heavy-duty work

CURVED IMPACT WRENCH SW 24

for **brake cylinder repairs**
(SAF No. 04 434 3337 00)

- ▶ Repairs **without the need to remove the tire in case of breakdowns** – possible due to special shape
- ▶ Practical also for repairs in workshops

YOUR ADVANTAGES

- ▶ Specially-selected **material** for **heavy-duty work** on the street and in workshops
- ▶ **Guaranteed durability** of the tools even when used daily
- ▶ **Laser engraving** with **conversion formula for torque** on each wrench

▶ Damaged mountings of brake calipers and brake cylinders?

▶ Dirt and rust on mountings making repairs more difficult?

▶ A lot of effort and assembly space needed for the repairs?

The solution: Two new universal tools from SAF-HOLLAND in cooperation with HAZET
