

SAF-HOLLAND optimises the costs of parcel and express delivery services for spare parts from 2016-06-01.

From 2016-06-01, SAF-HOLLAND is introducing a revised price structure for overnight express delivery services.

The aim is to optimise the service and introduce more attractive pricing for aftermarket customers.

Delivery charges are currently calculated by weight per kg. When the new prices take effect, charges will be at a fixed rate per weight categories. The “Domestic overnight express” delivery service will therefore be **cheaper** for low weights (up to 50 kg) and give customers who order small parts or small quantities a more attractive option to receive their shipments by express delivery. The prices for higher weight categories will remain largely unchanged.

The new prices, dimensions and weight categories are listed on the following pages.
