

LUBRICANTS

With our SAF-HOLLAND LiLube lubricants, we offer you high-quality lubricants for your fleet.

Wheel bearings, ball races or axle stub – SAF-HOLLAND offers the lubricant you need. The selection of highly refined base oils and additives ensure smooth driving over a long period of application.

SAF-HOLLAND lubricants reduce wear and guarantee a consistent, long-lasting performance even under extreme conditions.

They conform with REACH, CLP and meet current environmental standards. Technical data sheets and application instructions must be followed. Safety data sheets are available upon request.
