

SAF INTEGRAL-GUARANTEE / Brake Disc with Serial number

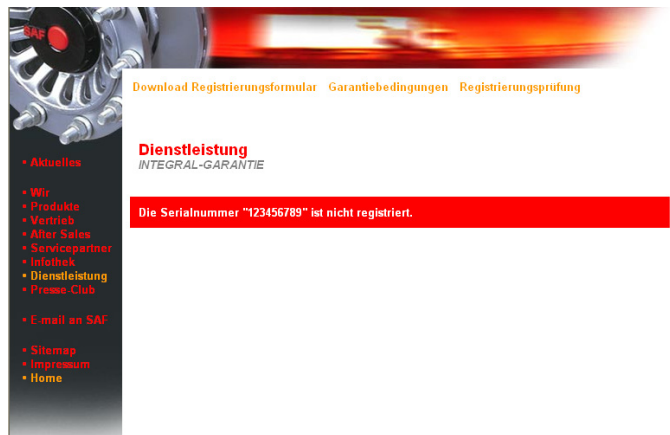

An *INTEGRAL-GUARANTEE* against continuous brake disc cracks is available from SAF for all INTRADISC *plus INTEGRAL* suspensions providing the new vehicle is registered at the SAF Service Center.

To facilitate and secure the SAF *INTEGRAL-GUARANTEE* process for the SAF Servicepartners, a registration check can be now be done on the SAF Homepage under www.saf-achsen.de.

An online query has been installed under "Service packages – INTEGRAL-GUARANTEE – Registration check".

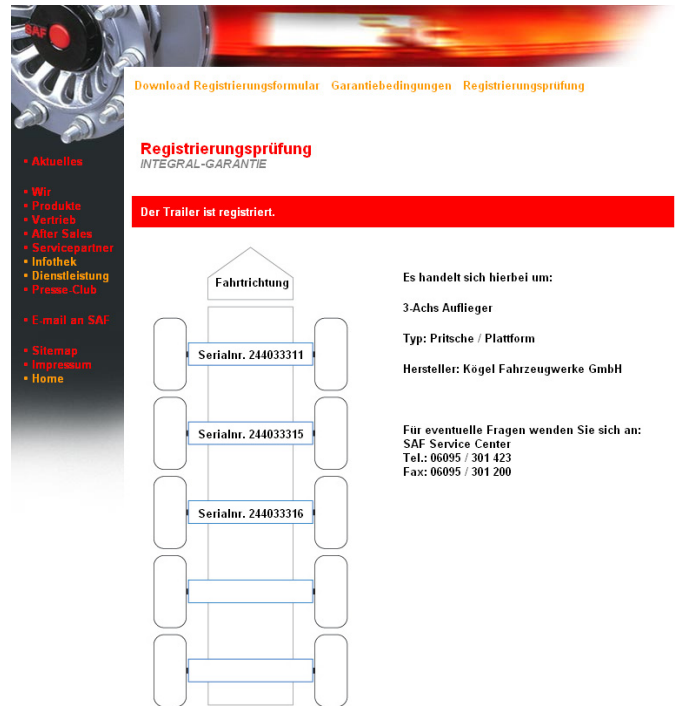

The user is requested to enter the 9-digit serial number of the suspension to be checked. The suspension will then be checked online whether it is registered and therefore if a claim can be made on the SAF *INTEGRAL-GUARANTEE*.

SAF Wichtige Info 38 / SAF Important info 38 – Service / Service

If the suspension is registered, the serial numbers of all the suspensions installed in this vehicle will appear as well as the type of vehicle and manufacturer.

The screenshot shows the SAF registration portal interface. At the top, there are links for "Download Registrierungsformular", "Garantiebedingungen", and "Registrierungsprüfung". The main heading is "Registrierungsprüfung INTEGRAL-GARANTIE". A red banner states "Der Trailer ist registriert." Below this, a diagram of a 3-axle trailer is shown with the following serial numbers: "Serialnr. 244033311", "Serialnr. 244033315", and "Serialnr. 244033316". To the right of the diagram, the text reads: "Es handelt sich hierbei um: 3-Achs Auflieger", "Typ: Pritsche / Plattform", and "Hersteller: Kugel Fahrzeugwerke GmbH". At the bottom right, contact information is provided: "Für eventuelle Fragen wenden Sie sich an: SAF Service Center, Tel.: 06095 / 301 423, Fax: 06095 / 301 200". A sidebar on the left contains a navigation menu with items like "Aktuelles", "Wjr", "Produkte", "Vertrieb", "After Sales", "Servicepartner", "Infobank", "Dienstleistung", "Press-Club", "E-mail an SAF", "Sitemap", "Impressum", and "Home".

In order to keep the entitlement to the *INTEGRAL GUARANTEE* every brake disc change must be reported – even when changing due to normal wear – by sending the completed exchange certificate to the SAF Service Center.

The serial number engraved on every new brake disc is to be taken and noted on the certificate before installation.

A serial number in the form of a 10-digit number is engraved on all SAF *INTEGRAL* discs from the production date of 14th April 2004 and can be seen on the inner side of the adapter ring (see picture).
