Bake 19,5"	Ø Brake Disc (mm)	Brake 22,5"	Ø Brake Disc (mm)
SAF SBS1918*	377 mm	SAF SBS2220*	430 mm
Knorr SN6/SN6/ST6*	377 mm	Knorr SN7/SN7/SK7/ST7*	430 mm
Wabco PAN 19	377 mm	Wabco PAN 22*	430 mm

Compatible with steel and aluminium wheel rims with off set ET120
B9-19S, B9-19K, B9-19W, B9-22S, B9-22S01, B9-22K01, B9-22W

*Compatible brake pad kits have to be ordered separately

Up to 2 hours reduced repair times owing to pre-assembled components

The above mentioned retrofit kits contain SAF hubcaps including NFC chip, which is not yet registered to the respective axle when delivered. Therefore, the NFC chip must be tuned in to the axle. This is done very simply in just a few steps: [NFC-Instructions](#)
