

Series launch of the new trailer disc brake SAF SBS2224H0 from November 2026

SAF is launching a **new 22.5" disc brake** in the **11-ton axle load range**. It was developed in close cooperation between chassis specialist **SAF-HOLLAND** and brake specialist **Haldex** and builds on both companies' many years of experience in the 9-ton segment.

It will be available from the fourth quarter of 2026.

Data of the new disc brake SAF SBS2224H0

Characteristic	SAF SBS2224H0
Dimensions of brake disc	Ø 430 x 45
Maximum axle load	11 t
Test load homologation	12 t
Maximum brake torque	24 kNm
Maximum permissible input force	15 kN
Maximum service brake chamber	24" BBA
Caliper weight incl. pads	36 kg
SAF part number left	03080013100
SAF part number right	03080013200
Test report number	TDB0896

New axle versions

Brake	Axle version
SBS2224H0	BI10-22S04
	BIL10-22S04
	BIZL10-22S04
	ZI10-22S04
	SI10-22S04
	SIL10-22S04
	SIZL10-22S04
	SI11-22S14
	ZI11-22S14
