

SAF CBXu & CBXy SERIES

THE CBXu AND CBXy SUSPENSIONS DELIVER DURABILITY IN A LIGHTWEIGHT SYSTEM FOR LOW PROFILE TRAILER APPLICATIONS

CBXu SERIES UNDERSLUNG AIR SUSPENSION AXLE SYSTEM

The CBXu and CBXy suspensions deliver durability in a lightweight system for low profile on- and off-highway trailer applications. Models with capacities of 23,000, 25,000 and 30,000 lbs. are available for drop-decks, lowboys and low profile specialty trailers. Models are available with ride heights ranging from 6 to 12 inches.

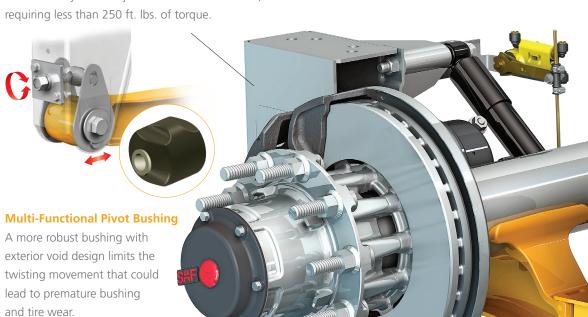

CBX models are equipped with SAF 5.75" diameter axles for increased stiffness, even tire tread wear and reduced weight. The CBu and CBy models with 5" SAF axles allow smaller drum brake configurations for low profile applications that require 17.5 and 19.5" wheel sizes.

MODEL CAPACITIES 23,000 lbs. CBX23u 25,000 lbs. CBX25u 30,000 lbs.* CBX25/30u * The CBX25/30 is rated for 30,000 lbs. of load carrying at creep speed. Creep speed is defined as 5 mph or less.

Swing Align™

The industry's fasted, most convenient and least expensive axle alignment system. Requires no replacement parts or disassembly. Axle alignment is achieved by direct adjustment of the lead screw, requiring less than 250 ft. lbs. of torque.

CBXu SERIES

LIGHTWEIGHT DURABILITY FOR LOW PROFILE TRAILERS

The CBX25/30 Model is Rated for 30,000 lbs. of Load Carrying Capacity at Creep Speed*

The CBX25/30 is specifically designed to address additional load transfer to the primary suspensions when lift axles are raised, typically encountered in tight maneuvering situations. The CBX25/30 delivers the additional load capacity through a larger air spring.

* Creep speed is defined as 5 mph or less.

Drum Brake Axle is Standard Equipment

The SAF CBX25u standard configuration features a SAF X-Series 5.75" diameter axle with 161/2" x 7" extended life brake linings and industry standard taper spindles. Optional parallel spindles available.

With standard drum brakes, the CBXu model provides optimum ground clearance by locating the spring brakes and camshafts even with the axle.

Two Model Choices to Meet your Fleet's **Specific Needs**

The P89 model at a price point that makes sense for fleets of any size. And, the P89 Plus for premium performance. Disc brakes simply provide better performance than drum brakes. They stop shorter for increased safety and reduced maintenance for lower total cost of ownership

Lightweight Cast Steel Trailing Arm Beam Design

Cast beam design meets the demand for durability while providing a low overall system weight.

CBXy SERIES INTEGRATED YOKE MOUNT SUSPENSION AXLE SYSTEM

MODEL CAPACITIES

25,000 lbs. CBX25y 30,000 lbs. CBX25/30y*

The CBX25/30y is rated for 30,000 lbs.
 f load carrying at creep speed. Creep of load carrying at creep speed is defined as 5 mph or less.

The Industry's First Integrated Yoke Mount Suspension Axle System For Low Profile Lowboy Trailer Applications

Designed to work in conjunction with the low profile CBXu underslung model, the CBXy includes the same proven CBX feature benefits you have come to depend on. The cast steel yoke mount beam provides strength

in a lightweight design and BLACK ARMOUR™ provides the ultimate in corrosion protection. The SAF 5.75″ diameter axle comes with the P89 Series air disc brakes or drum brake wheel end packages.

Available with P89
Series air disc brake or drum brake wheel end packages with industry standard tapered spindles or optional parallel spindles.

Smaller drum brake configurations are available with the CBu and CBy suspension models.

OPTIONAL P89 SERIES AIR DISC BRAKES

INDUSTRY LEADING AIR DISC BRAKE WARRANTY

See XL-AS11002WC warranty statement for complete details.

Proven Design Quality with Genuine Value

All the benefits you expect from the world's leading trailer axle disc brake supplier, at a price point that makes sense for commercial fleets of all sizes.

Featuring:

- Heavy-duty venter rotor SAF caliper
- Premium matched set bearings
- Parallel or taper spindle 5-Year warranty

Premium Performance Maintenance Free Design

Featuring the legendary INTEGRAL® rotor/ hub and premium sealed bearings for reduced maintenance.

Featuring:

- INTEGRAL® rotor Long-life sealed bearings
- Premium brake chambers
 SAF caliper
- Robust parallel spindle Premium spindle nuts
- 7-Year warranty

OPTIONAL TIRE PILOT PLUS™

By PressureGuard - A Division of SAF-HOLLAND

Optional Tire Pilot Plus™ not only controls pressure through inflation, but also maintains equal pressure across all wheels and features high pressure relief for overinflated tires. The robust design sets it apart from competitive designs with durable components.

- Diamond knurled hose connections at both hubcaps and tire valve ends allow installation and replacement without a wrench.
- The stainless steel air hose connections are ported through the sides of the hubcap and are protected
- System warning light alerts the driver only when there is a need to immediately seek service.

IMPROVE PROFITABILITY
BY ENHANCING TIRE
LIFE, FUEL EFFICIENCY

^{***} Other axle tracks available upon request.

THE CBu AND CBy
MODELS MEET THE
NEED FOR WHEEL/
BRAKE CONFIGURATIONS
SMALLER THAN THE
INDUSTRY STANDARD
22.5" WHEELS

For low profile trailer applications that require 17.5" and 19.5" wheel sizes, the SAF CBu and CBy suspension models accommodate 12.25" x 7.5" drum brake packages. The CB models feature industry standard tapered spindles. Optional parallel spindles also available.

SYSTEM	CBX23	CBX25	CBX25/30
Undressed Drum Brake Axle (16.5" x 7" braked axle only – no slack adjusters or brake actuators)	558 lbs.	564 lbs.	608 lbs.
Dressed Drum Brake Axle (Includes steel hubs/drums, bearings, oil, slack adjusters and brake actuators)	912 lbs.*	918 lbs.*	962 lbs.*
P89 Disc Brake Axle	965 lbs.	971 lbs.	1,012 lbs.

^{*}Optional lightweight dressed drum brake wheel ends available - 78 lbs. lighter.

APPLICATIONS

Versatile CBXu and CBXy Underslung Fixed Frame Series Suspensions are performance proven for specialty trailer applications.

- Drop Decks
- Low Boys
- Specialty Vans
- Moving Vans
- Chip Hauler
- Livestock
- Dry Bulk
- Auto Haulers

SAF CBX fixed frame suspension models are available for top mount trailer applications.
