

## Important Info – October 2017

### HOLLAND Landing Gear

HOLLAND ATLAS 55, 65 and iM landing gear to now have enhanced gear box with improved seal and corrosion protection.

#### Product Enhancement Notice Effective November 1, 2017

The HOLLAND ATLAS 55, 65 and iM landing gear will now feature three new enhancements to better facilitate years of trouble free operation. The following changes have been made:

- **Gear Box Rubber Gasket** – for improved sealing and grease retention
- **E-coated Input Shaft** – increased corrosion protection
- **Vapor Deposition Galvanized Low Input Gear** – increased corrosion protection
