

Friction material quality SAF 567

New friction material for disc brake SBS2220H01

SAF-HOLLAND stands for quality and progress. Accordingly, we are developing new products and constantly optimizing our proven products continuously. As part of this product optimization SAF-HOLLAND Aftermarket will be offering the friction material quality **SAF 567** in the disc brake pad set **03 057 0015 01** for the SBS 2220H01 brake.

Part number	Brake version	Quality	Available
03 057 0096 00	GEN1 - SBS 2220H0	SAF 577	already available
03 057 0096 01	GEN1 - SBS 2220H0	SAF 567	already available
03 057 0015 00	GEN2 - SBS 2220H01	SAF 577	already available
03 057 0015 01	GEN2 - SBS 2220H01	SAF 567	NEW from 1st February 2024

Information:

- High friction value stability in relation to temperature and speed over the entire service life
- Balanced wear behavior
- Current ECE R90 homologation available
- Available from the **1st of February 2024**
