

Custom made Trailer Axles and Suspensions

ABOUT TECMA

TECMA specializes in engineering and manufacturing customer-specific axles and suspensions and, in close cooperation with the vehicle manufacturer, offers customized solutions that fully meet the customer's needs in terms of applicability. As soon as an axle is "not standard", TECMA comes into the picture!

TECMA has been active in the development and production of custom axles and suspensions for over 30 years. In those 30 years they have grown into one of the most dynamic and innovative companies in this field. Tecma's goal is to offer a perfectly suitable solution that fully meets the customer's wishes in terms of applicability and price.

Do you have any questions about customized axles?
We are here for you and look forward to hearing from you.
