

NEWAY ADTB Air-Ride Suspension

Product Change Notification: ADTB Air-Ride Suspension Control Rods

Effective January 2022

To support continuous product improvement, SAF-HOLLAND will be releasing new upper and lower control rods for the ADTB Transit Bus Suspension. The new style control rods are a direct replacement for the old style control rods with no change to fit, form and function.

The upper control rods utilize a new adjustable design while the lower control rods feature a new proprietary casting design. Both have been extensively tested and will enter production in January 2022.

Part number Cross Reference:

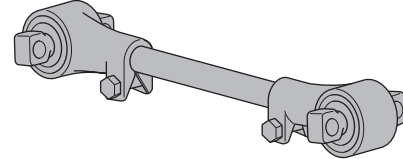

Upper Adjustable Control Rod:
90550718 replaces 90045709

Lower Fixed Control Rod:
90550719 replaces 90045827
